Profile

I am a beginner in Front End development currently looking for a job/internship to bring my skills to the implementation of interesting projects. I learn very quickly, like getting into new technologies and can gain knowledge on my own. I am a person capable of analytical thinking and I like to work in a team.

Skills

HTML5, CSS3, DOM

Layout using CSS3 i JS on [GitHub](#), [GitHub Pages](#)

JavaScript (ES6)

[My profile on CodeWars](#) :)
